- Briefing sessions and tender adjudication
- Client & Community liaison
- Design Reviews

*additional services and resources can be provided on request such as CAD design, drafting, modelling etc.

OUR PACKAGES

We can put together a unique package of resources that fits your budget and requirements. We use a modular approach that means that we can add or remove hours or resources as required.

SENIOR RESOURCE:

- Contracts engineer
- Material specialist (SMT)
- Engineer representative (RE)

All senior resources have a minimum of 10 years industry experience and they are professionally registered

JUNIOR RESOURCE:

- Engineer representative (RE)
- Assistant engineer representative (ARE)
- Technical assistant (CoW)
- Student Technicians

All junior resources will be supervised by our senior resource to provide you with a peace of mind and additional value.

SOME SUGGESTED PACKAGES:

Monthly Full Supervision Team

- 1 x Senior Engineer representative (RE) - full time
- 1 x Junior Assistant engineer representatives (ARE) - full time
- 2 x Junior Technical assistants (CoW) - full time
- 1 x Senior Material specialist (SMT) – part time
- 1 x Senior Contracts Engineer – part time

Prices can be negotiated to fit your need and budget

Monthly Partial Supervision Team

- 1 x Senior Engineer representative (RE) - part time
- 1 x Junior Assistant engineer representatives (ARE) - full time

Prices can be negotiated to fit your need and budget

WHY WORK WITH US

We can **mix quality resources** in order to **decrease your cost**. For example, we can allocate a junior resource to your site full time at a lower rate while the senior resource with the necessary qualification & experience supervises the junior resource on a part time basis. This allows you to **save costs** instead of hiring the necessary senior resource full time for your site, whilst **still conforming to client requirements**.

We have the **necessary expertise** for a full turn-key solution (Condition Investigation - Design – Contract documentation - Project management and Supervision) as well as the **flexibility** for isolated short term projects such as site inspections & reports, contract documentation and tender adjudication, training and mentoring as well as quality system implementation etc.

We **only bill you for the hours we work on your project**. This keeps your overheads low while still receiving the **value of a conventional full supervision team** and eventually the desired result.

You get **access to years of experience** and foresight to identify possible risks and mitigating it by preventative action. **We see problems that your team might miss**.

LET'S DO BUSINESS

01

STEP 1: IDENTIFY YOUR REQUIREMENT

Do you need an RE on one site or a contracts engineer for multiple sites? Maybe you just require a specialist on a short-term basis? Communicate your specific requirements to us.

02

STEP 2: WE WILL SELECT THE RESOURCES AND THE ALLOCATED HOURS FOR YOUR PROJECT

We choose the resources that will fit your project or site. We also determine the correct mix of hours per resource to ensure the best result for you. We give you a quote to meet your project specific requirements.

03

STEP 3: WE ONLY CHARGE FOR THE HOURS SPENT AND ACTUAL DISBURSEMENTS

After the work is done / or per month, we will invoice you for the hours spent per resource and the actual disbursements as agreed.

04

STEP 4: YOU GET THE RESULT

You get the quality and the expertise you need without having to cover the overheads as well as all the additional admin and risk of employing a resource full time.

05

STEP 5: AFTER SERVICE

We ensure that quality supervision remains in place up to final completion and all asbuilts are submitted.
